

PRS-801-W 5lb Rubber Electrode

The Prostat PRS-801-W is a precision milled resistance probe with conductive rubber pad for use with Prostat's PRS-801 Resistance System or PRS-812 Resistance Meter.

Used in point-to-point and point-to-ground resistance testing of floors, worksurfaces, floor mats or any flat object, the PRS-801-W produces repeatable measurements in accordance with ESD Association Specifications.

The PRS-801-W will work with any other resistance measuring meter for specification measurements.
