

Facemask Manufacturer

We are one of the leading facemask manufacturer for the Semiconductor, Electronics, Data storage and Biomedical Industries.

Our Facemasks are produced in cleanroom enviroment.

Mechanical Properties

- Cleanze™ 2 ply non-woven facemask.
- Cleanze™ 3 ply non-woven facemask.

Features & Benefits

- Using an ultra-fine PP (meltblown Non Woven material).
- Provides superior contamination barrier in Cleanroom Application.
- Particle filtration efficiency @ 0.3 micron (PFE) at 99%.
- Flexible nose clip for a more comfortable fit.
- Soft Elastic band has been selected to reduce ear irritation.
- Using a fully automated facemask making machine with less human intervention, we can offer a very competitive price and clean product.
