

## HEATER BENCH

Our brilliantly designed heater bench from Korea is manufactured with embedded heating elements and self-regulating temperature functions which provides optimal warmth.

The robust metal body and smooth wooden finished surface compliments the contemporary design. Each bench has handy cup holders to allow users to enjoy a cup of warm drink while seated down.

■ Korea Testing Certification no. XJ070015-15001A

■ Korea Patent registration no. 10-1548151

Dimensions 2.5 (L) x 0.5 (H) x 0.5 (W) m

Power Input 220 VAC, 60 Hz / 120 VAC, 60 Hz

Power Output 24 VDC / 8.8 A, 300 W

Power Controller 5 VDC / 1.0 A, 5 W

Heated Surface Temperature 38 - 42 °C

Electrical Power Consumption 230 Wh

Electrical Power Consumption (10 h) 2

Operating Mode

2.3 KW Switch on at 5°C Switch off at 7°C

## **Winters** do not have to be cold anymore.
