R&D CAPABILITIES

- ▶ SHEFFIELD has a professional team of more than 100 product design and research engineers. We produce an average of 400 new products annually. Our design team, coupled with our tooling division, can produce SLA samples within 24 hours and working prototypes within a week. Your designs will become a reality and allow you to be the first to market.

PRODUCTION CAPACITY

- ▶ SHEFFIELD has expanded with two production bases with a combined total of 1.6 million square feet for manufacturing and product development.

▶ Production Base Glance

▶ Tooling Division

▶ Warehouse & Distribution

▶ Production Base
1.07 million square feet of manufacturing space

▶ Manufacture Center
2 million square feet of manufacturing space

DETECTION & EXPERIMENTAL CENTER

- ▶ Our QC Division has 50 engineer working in our test labs as well as monitoring production at all of our factories. Our primary test lab at our Headquarters is equipped with some of the most state of the art machinery available. Every product and package we manufacture must pass a rigorous testing process both during and post production before it is cleared for shipment.

PRODUCT AFTER-SALES SERVICE TERMS

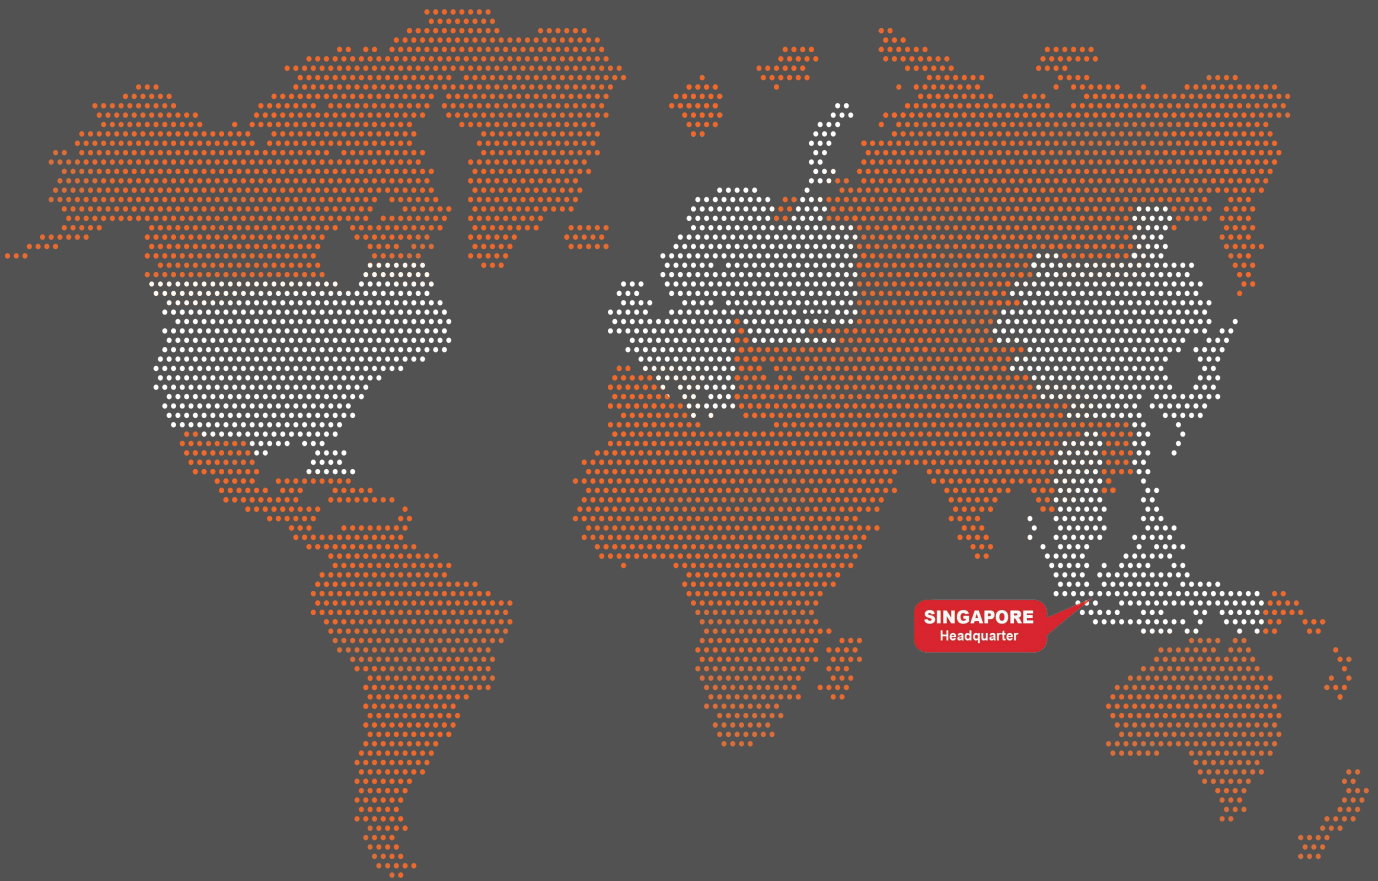

All the **SHEFFIELD** products meet or exceed the GB and ISO standards. We guarantee that during your usage, if any functional issue occurred that is caused by quality within product limited life time, you can have repair or same product replacement for free, based on valid purchasing proof and/or warranty card in any **SHEFFIELD** authorized retailers. If other repairs are needed, excluding product's own quality issue, we will determine the repair charges based on case-by-case basis.

Service Terms & Conditions as below:

- A. Replacement valid only after repair. We'll make replacement only if the part is beyond repair.
- B. Corrosion, electroplating peeling, scratch on surface after usage, damage of plastic handle and package (carton/card, frame, etc) during usage are not included in the after-sales service terms.
- C. Wear & tear during normal usage is not included in the after-sales service terms.
- D. Functional issues caused by improper usage are not included in the after-sales service terms. Improper usage for example: man-made damage, operating the tools without manual, beyond the scope of application or accident.
- E. Any disassembling action or missing parts are not included in the after-sales service terms.

Any questions, please feel free to contact with **SHEFFIELD® authorized retailers.**
