

# GZ-3000 Ground Ranger Impedance Meter

GZ-3000

## Features:

- Patented design Measurement Technology
- High/ Low and Near Fail limit setting
- LCD back-lighted display with 0.01Ω resolution.
- Light weight and Easy to operate with Data Recording
- Data logging with addition Data fields for
  - » Operators
  - » Locations
  - » Test results.
- Built-in Memories for Data Storage/Recording
- Built-in SD Card Slot for Measurement Data Transfer
- Long-life rechargeable battery provide convenient and cost savings
- AC impedance measurement range: 0Ω ~ 20MΩ.
- Auto Power Saving Setting at 5 min idle time for more power saving
- Digital Calibration – High accuracies and repeatability
- Free Utility program for Paperless Report generation

## Product Specifications

Dimension	: 18 x 12 x 3 cm
Weight	: 150g
Power Source	: 100-240VAC/ 50-60Hz/ 500mA
Power Status Indicator	: Battery Low LED Indicator
Impedance Range	: 0Ω ~ 20MΩ.
Hardware interface	: RS232 & Built in SD Slot
Download type	: SD Card Data transfer
Battery Type	: Rechargeable Lithium Ion Battery
Display	: Back Light LCD Display 4 Lines x 20 Char
	OK LED indicator
	NG LED indicator
	Low Batt LED indicator

## Optional Accessories

Calibration Software  
RS232 interface cable  
Decade Resistance Box Calibrator
