

自动晶舟转换器 Auto Wafer Transfer

自动晶舟转换器
Automatic Horizontal Wafer Transfer

自动水平晶舟转移 Automatic Horizontal Wafer Transfer

适用晶圆：4吋~8吋

Wafer Size : 4 Inch~8 Inch

材质：PP / ESD

Material : PP / ESD

规格：依客户需求，提供客制化服务

Specification : Customized

- ▶ 应用于半导体、光电等产业，主要使用于晶舟对晶舟的晶圆传送。

Used in semiconductor, optoelectronics and other industries, mainly used in wafer transfer between wafer cassettes.

- ▶ 防呆装置可使晶舟在未放置正确位置前，无法进行操作。

The fool-proof design has a safety feature to prevent any transfer before the cassette is placed in the correct position.

- ▶ 自动化传输，减少人员使用疏失导致晶圆破损。

Automated transmission, reducing the loss of wafer caused by operator.

- ▶ 设有手动停止按钮，中途晶舟盒离开正确位置或有突发状况，可立即停止作动。

With EMS, when there is an emergency, it could stop the action immediately.
